

THE DREAM BECOMES REALITY: NOW!

Become a part owner of your own private Green Garden Resort Pool Villa in Cha-Am

We call it Europe's better offer on shared ownership of a luxurious villa in Cha-Am. Green Garden Resort is located about 0.5km from the beach and about 4.5km from the town and it offers the same high quality facilities as 5 star hotel resorts. Green Garden Resort consists of 30 charming high standard villas with private pools and a 30 room Resort Hotel. You simply purchase the fixed number of weeks you need for your holiday(s) and receive the shares for the villa. After this you don't need to worry about paying for use or maintenance the remainder of the year.

The shares are yours for life and you can sell them or pass them on at any time. The villa will be ready at your arrival in Cha-Am and you can order drinks, transportation and other service items directly from the Internet via your personal username/password. You can rent out your villa when you don't use it or you can let us help you through our free rental service. We, the owners, are also living in the resort and are always ready and willing should you need our assistance in any matter. Make your dream a reality today and enjoy life in Thailand's amazing climate and its' ridiculously low prices.

After you pay the full amount the shares and usage of these are yours for life. The first villas will be ready for use in mid year 2011 and the whole Green Garden Resort will be ready in 2012.

Common expenses are 120 euro per share per year.

We are pleased to answer any questions you might have and we would like to welcome you into your new home.

With sunny regards,

The Green garden Resort team: post@cha-amproperty.com
